

TRINAV GLOBAL

PREMIUM PRODUCT CATALOG

“Connecting India’s Finest to the World”

SOURCED FROM KERALA • PACKAGED IN AHMEDABAD

1. Premium Green Cardamom (Elaichi)

The Kerala Advantage: Sourced from the mist-clad hills of Idukki and the Western Ghats, where the climate creates the world’s most oil-rich, aromatic green cardamom.

Our Trademark Quality: Hand-washed, sun-dried/machine-cured under controlled temperatures to lock in the vibrant green color and natural freshness without any artificial polishing.

GRADE NAME	SIZE (DIAMETER)	PHYSICAL APPEARANCE	BEST SUITED FOR
TRINAV Emperor Bold	8mm+	Extra Large, Plump, Deep Green	Luxury Exports & Premium Gifting
TRINAV Jumbo Bold	7.5mm – 8mm	Uniform, Dense, Rich in Seeds	Premium Retail Brands
TRINAV Super Bold	7mm – 7.5mm	Medium Bold, Highly Fragrant	Wholesale & Spice Blends

Technical Data: Volatile Oil: 3.5% min | Moisture: < 11.5% | Thrips/Blemishes: < 0.5% (Strictly sorted)

2. Malabar Black Pepper (Kali Mirch)

The Kerala Advantage: Sourced from the historic Malabar coast and Wayanad region, famous for producing heavy, high-density black pepper with an intense, biting heat.

Our Trademark Quality: Subjected to multi-stage mechanical garbling (cleaning) to ensure zero light berries, dust, or pinheads.

GRADE / TYPE	FORMAT	CHARACTERISTICS	INDUSTRY APPLICATION
Malabar Garbled (MG1)	Whole Berries	Uniform dark color, zero hollow seeds	Premium Export & Wholesale
Tellicherry Bold (TGSEB)	Whole Berries	Extra-large selected premium berries	Gourmet Retail Shelves
Coarse & Fine Powder	Milled	Cold-milled to preserve volatile oils	Food Processing & Hospitality

Technical Data: Piperine Content: 4.5% to 5.8% (Guarantees intense pungency) | Density: 550 - 600 g/l

3. Premium Hand-Picked Cloves (Laung)

The Kerala Advantage: Sourced from the humid, organic hilly terrains of Southern Kerala, known for cloves that are exceptionally rich in eugenol oil.

Our Trademark Quality: We maintain a strict quality checkpoint where cloves are hand-sorted to ensure negligible headless cloves and zero stems or foreign matter.

Product Profiles:

- **TRINAV Hand-Picked Prime:** Fully grown, plump flower buds with a distinct three-dimensional crown (head) and rich reddish-brown body.
- **Commercial Select:** Uniformly dried whole cloves optimized for extraction and bulk grinding.

Applications: Essential for Garam Masala, biryanis, pickles, and upscale bakery lines. Highly demanded by toothpaste and dental analgesic manufacturers due to its natural antiseptic properties.

Technical Data: Eugenol Oil Content: 15% – 18% | Moisture: Max 12% | Headless Cloves: < 2% in premium packs

4. Kerala Nutmeg & Mace (Jaiphal & Javitri)

The Kerala Advantage: Sourced from the fertile, organic river banks of Kerala, where the soil yields highly potent Nutmeg kernels and bright, thick Mace laces.

Our Trademark Quality: Sun-dried naturally to prevent the volatile oils from evaporating. Inspected thoroughly for zero fungal development or inner hollowness.

Product Range:

- **Whole Nutmeg (With & Without Shell):** Round, heavy, deeply grooved nuts with high moisture-retaining essential oils. Available in ABCD Premium Grade.
- **Premium Mace (Javitri Whole Flower):** Intact, golden-orange to brilliant crimson-red fibrous laces. Completely uncrushed, maintaining its natural flower shape.

Applications: High-end baking, European dessert manufacturing, meat curing seasoning, cosmetics, and traditional Mughlai spice formulations.

5. Authentic Cinnamon (Dalchini)

The Kerala Advantage: Carefully selected from specialized coastal plantations that yield cinnamon with a smooth, sweet, and comforting woody note rather than a bitter or overly pungent bite.

Our Trademark Quality: Expertly peeled, scraped, and air-dried inside hygienic facilities to form beautiful, tight natural quills.

Available Formats:

- **Premium Quills (Sticks):** Clean, multi-layered inner bark rolled into uniform tubes. Cut into precise retail lengths (3-inch / 4-inch).
- **Cinnamon Bark Chips/Broken:** Sorted, clean bark fragments ideal for commercial tea blending, flavor extraction, and fine powder milling.

Key Feature: Low coumarin levels with highly delicate, sweet flavor layers—perfect for premium lifestyle beverages and international baking.
